

LEADERSHIP DISEASE CHECKLIST B2. NOMADIA

IMPACT - Risk Factors, Stages & Outcomes

What has already happened or might occur?

- Followers begin to slow down and desert your leadership.
- People think you look pathetic.
- People are concerned and uncertain of what you will say or actions you will take.
- People are confused and not sure how to interpret your mixed signals.
- Because you are lost, everyone feels lost.
- You are labeled a failure.
- You lose touch with what is actually going on around you.
- People believe you have lost your ability to self-assess and recognize the problem.
- You become far removed from the reality of what is truly happening.
- People tell you what they think you want to hear.
- People feel sorry for you and begin to protect you, making it more difficult to face reality.
- People do not give you information because they do not want to surprise or upset you.
- You are not in tune with your organization or team.
- You feel more pressure on yourself to have all the answers.
- You become isolated and you lose contact with the people you need.
- Solutions are not sought because everyone believes they are part of a failing effort.
